TCP-251 Freight Car Brown- Santa Fe, 1945+

TCP-255 Heavyweight Passenger Car Green-

Light Primer

Recommendations

Tru-Color Paint® recommends a starting pressure of 25 psi for most airbrushes. Age of airbrush and the tip size will cause the starting pressure to vary. We recommend the use of TCP-15: Thinner, if thinning the paint is desired. Clean-up is easily achieved with acetone.

Tru-Color Paint is a solvent-based acrylic paint. Acrylic stands for the polymer used to bind the pigment to your model. All Tru-Color Paint products are manufactured in the U.S.A. to exacting standards.
